SUMMARY

Hard-working Computer Science major (3.4 GPA) currently attending the University of San Francisco, with 2.5 years of experience. Aiming to leverage a proven knowledge of software development, database design, and wed design skills to successfully fill the Software engineer role at your company. Frequently praised as detail-oriented by my peers, I can be relied upon to help your company achieve its goals.

EDUCATION

University of San Francisco
Bachelor's of Arts

Computer Science

Graduating May 2021

EMPLOYMENT HISTORY

MVCode
Coding Instructor

December 2017 - Present

Teach students (3rd-10th graders) to code using a curriculum software based on computational logic, creativity, and collaboration to build their own video games, websites, and robots

Envestnet | Yodlee
Data Operations Intern

May 2019 - August 2019

Used Ionic framework along with Node.js and Angular to help develop a mobile app for asset management that can scan/organize data and send a post request to save it into a database. Engaged in a professional setting and learned the business side of the company while also spending a lot of time at the data center working on hardware.

Envestnet | Yodlee
Cloud Infrastructure/Development Operations Intern

June 2018 - August 2018

Created a full stack asset tracking software with my partner to aggregate data on all of our assets including hardware and software to make management of assets as easily as possible for the purchasing department.

SKILLS

Golang
Python
SQL
Blockchain
C/C++
JavaScript
